INFORMACIÓN AL USUARIO

PLAN DE TRANSPORTE URBANO SOSTENIBLE DE BENIDORM

ANEJO Nº3: INFORMACIÓN EN PARADAS

Las paradas de autobús reflejan cierta información sobre las líneas que pasan por ésta, como los itinerarios de las líneas y sus horarios estimados con la frecuencia de paso.

La empresa *Bus Llorente*, ha proporcionado la información con la cartelería existente de las líneas urbanas e interurbanas gestionadas por ellos. Existen dos tipologías de carteles:

- El primero de ellos, con información más básica, es el que se encuentra en paradas señalizadas tanto con señal S-19, tótem vertical informativo y marquesina; éste informa únicamente sobre las líneas que dan servicio a la parada en particular.
- El otro tipo de cartelería se encuentra en paradas con marquesinas. Una de las características principales es que muestra un mapa completo de Benidorm con información de todas las líneas, señalando las paradas de cada una de ellas. Además, añade una lista completa con la numeración de paradas y su ubicación y un esquema informativo con indicaciones, recomendaciones y normativa en el transporte urbano.

Las paradas de los autobuses gestionados por *La unión de Benisa* contienen información sobre las paradas de la línea y los horarios de todas las paradas a lo largo del día.
